

Using Internet for Disaster Prevention Information in Ashiya Upper Secondary School Hyogo Japan after Great Hanshin Earthquake.

Tatsuya Sugoshi[1]

[1] AUSS

We suffered serious damage by the Great Hanshin Earthquake which occurred on January 17, 1995 in Ashiya Upper Secondary School. Students have been studying about the earthquake and the disaster since 1996 in the class of the Earth science. We opened the web site and shown the student's works. You can see 280 works on web site in February, 2000. (<http://www.sanynet.ne.jp/~ken-ashi/>)
