

## Educational interaction using wiki between teacher and students

MOKUDAI, Kuniyasu<sup>1\*</sup>

<sup>1</sup>Pro Natura Foundation Japan

A paper for measuring understanding of students in university lectures, it is often after the class, and only to be returned. In order to increase the educational effect, it is necessary to modification by the faculty of repetition. In this presentation I report the educational practice of using wiki.

Keywords: wiki, internet, education in University
