## Development of Strandplain Ridges Group in the Kujukuri Coastal Plain by LiDAR DEMs

OOI, Shinzou<sup>1\*</sup> ; NANAYAMA, Futoshi<sup>2</sup> ; NAKASHIMA, Rei<sup>2</sup>

<sup>1</sup>GSI/AIST, <sup>2</sup>AIST

The DEM data based on an Airborne laser survey was fixed recently, and it became possible also in the Kujukuri Coastal plain to use this DEM data. Then, this DEM data analyzed the microtopography of the plain. And the development of the Kujukuri Coastal plain, especially the north-south difference were considered.

Keywords: Kujukuri Coastal Plain, Strandplain ridge, LiDAR DEMs
