

## The Coupled Dissolution and Growth

\*Katsuo Tsukamoto<sup>1</sup>

1. Graduate School of Engineering, Osaka University

Lots of discussions on whether growth is an opposite phenomena of dissolution or not. Here after presenting the real rates observed in-situ in both cases at the same absolute value of chemical potential, we show the difference. This may lead to a deeper understanding of coupled dissolution and growth of crystals in solution. We will show even in dissolution process of a crystal crystallization barrier plays an important role.

Keywords: dissolution, growth, mechansim
