Plan of observation of stellar occultations by (2) Pallas

Isao Sato [1], Masahisa Yanagisawa [2]

[1] Computer Science, RIKEN, [2] Univ. Electro-Comm.

Stellar occultations by (2) Pallas will occur on September 26 and October 2.

A size and shape of Pallas can be revealed in detail by observations of these events.

So we are planning to observe these events in the large area.
