

A Study of YUKIGATA in Rishiri Island --- Appearance Mechanism of YUKIGATA "Wakubune", Hokkaido Pref. ---

Takatsugu Yamada[1], Daisuke Nishikawa[1], Masahiko Satoh[2]

[1] Institute of Low Temperature Science, Hokkaido University, [2] Rishiri Town Museum

<http://www.yukihaku.net/>

A few studies of YUKIGATA has been carried out scientifically. The forest and snow condition were surveyed at the appearance area of YUKIGATA "Wakubune", Hokkaido Pref. The result was gained that the appearance was related to the height of forest around the YUKIGATA, which is related to snow depth.
