The Decrease in the Number of Students who Choose Earth Science and Attractive Textbooks

Tomoo Ariyama[1]

[1] Kaisei Junior and Senior High School

<http://www.kaiseigakuen.jp>

I will discuss about the reason of decrease in the number of students who choose earth science. Thinking about the subjects of the entrance examination, it is difficult for students to choose earth science.

The textbook screening system makes the unattractive textbook. We must improve the attractiveness of textbooks.
