

Invitation to Kitchen Earth Sciences

Kei Kurita[1]

[1] ERI,Univ. of Tokyo

The purpose of this session is , 1) to provide a non-authentic atmosphere in this Godotaikai meeting, and 2) to provide easy-to-use experimental subjects in the education of junior-high school,high school and freshman course at university. The session of this year is composed of two parts;lectures about diverse subjects from environmental research to volcanology and posters. The lectures include live desk-top experiments. This session is opn to public.
