

Solar Activity as Origin of Disturbance of Terrestrial Environment

Kazunari Shibata[1]

[1] Kwasan Obs., Kyoto Univ.

<http://www.kwasan.kyoto-u.ac.jp/~shibata>

As an introduction or a tutorial talk of the space weather session,
I will talk about the following topics:

1. Introduction: Big flares and super-storms in the fall of 2003
2. Solar Flares
3. Coronal Mass Ejections (CME)
4. Solar Wind
5. Is Prediction of Flare/CME Possible ?
