

Earth Science Education in Movie

Isao Iizawa[1]

[1] Environmental networks, Kyoto Univ

The speaker has been involved in the physical geography education as a standing lecturer at the high school for two years. Then..feel..Earth science..research..result..research..appearance..a variety of..media..high school student..know..become..but..high school..physical geography..education..how..perform..researcher..concrete..know..chance..few..think.A lot of researchers certainly receive schoolchildren and the high school student by the lecture etc.However, there might not be what sees guidance in a daily class etc.

Then, it is thought that it wants to see a frank actual class record in the image, and to introduce the teaching practice that uses the image done in the high school.
