## MHD-PIC connection model in space plasma

# Tooru Sugiyama[1]; Kanya Kusano[1]; Kusano Kanya ESC Holistic Simulation Research Group[2]

[1] ESC/JAMSTEC; [2] -

A new simulation model is developed to understand the cross-scale coupling in space plasmas. MHD and PIC simulations are simultaneously performed. The model can treat MHD-scale dynamics including particle kinetic effects. Here we show its algorithm and some examples.
