'Poster presentations by senior high school students' at Japan Geoscience Union Meeting

Tatsuhiko Hara[1]

[1] IISEE, BRI

Since the last year, Japan Geoscience Union has started a new session, 'Poster presentations by senior high school students,' where senior high school students give their poster presentations on topics in fields of earth and planetary science. In this presentation, we introduce this session with evaluation of the session held the last year, improvement of this year's session such as presentation using Internet video chats.
