Uncertainty of Asia summer monsoon change in global warming projections by the MRI-CGCM2.3

Shoji Kusunoki[1]

[1] MRI

<http://www.mri-jma.go.jp/Welcome-sjis.html>

Global warming projections were conducted by an atmosphere-ocean general circulation model (AOGCM) called MRI-CGCM2.3. For the present-day climate (1850-2100), we have performed
