

**False Eruption Records of the AD774 and AD1892 Ontake Volcano Eruption.**

# Teruki Oikawa[1]

[1] GSJ/AIST

The author reexamines the historical eruption records of Ontake volcano. Previous study pointed out that there were historical eruption records of Ontake volcano in AD774 and AD1892. However, there was no description of the eruption in the original records. Therefore, the historical eruption records of Ontake Volcano before AD1979 are undiscovered. Probably, the Ontake volcano did not erupt from the end of 18th century to AD1979.
