## **Handy and portable science museums for natural disaster by Dr. AVARANGER**

# Yasuaki Nohguchi[1]; Shinya Shimokawa[1]; Shin-ichi Suzuki[1]; Takahiro Kayahara[1]

[1] NIED

One of the basics of the disaster prevention is education. In this paper we will show a handy science museum, a bag of reduced scale demonstrations for natural disasters and a portable one by a car. All of the demonstrations can be exhibited without using power supplies again and again anywhere anytime.
