

Outreach Activities at Society of Geomagnetism and Earth, Planetary and Space Sciences

Nagatsuma Tsutomu SGEPSS outreach group[1]

[1] -

Research subject in society of geomagnetism and earth, planetary and space sciences (SGEPSS) is important not only for scientific curiosity but also for human activities. However, visibility of SGEPSS was not enough so far. For this point of view, SGEPSS outreach group was started from April 2004. We are doing several activities, for public outreach purposes.

Public outreach activities in society of geomagnetism and earth, planetary and space sciences will be introduced in this presentation.
