## The report about international geography olympiad in Taiwan and Tunisia

# Takahisa Izumi[1]

[1] Matsudo High,Senshu Univ.

The first aim of this presentation is to report about Asia-Pacific regional geography olympiad in Taiwan(APRGO2007) in detail. And the second aim of it is to survey about some problems and views toward international geography olympiad in Tunisia(IGEO2008) and Asia-Pacific regional geography olympiad in Japan(APRGO2009) .

Standing on these points,I'll make clear about the situation of geography education in Japan and try to propose some matters toward the improvement of geography education in high school level.
