

Anomalous magnetization of TCDP fault gouges and pre-seismic geomagnetic field perturbations of the Chi-Chi earthquake

Shoko Tachibana[1]; Norihiro Nakamura[2]; TCDP Hole-B Research Group[3]

[1] Geoenvironmental science, Tohoku Univ; [2] Geo-Environmental Sci., Tohoku Univ.; [3] -

We report paleomagnetic and petrologic (EBSD) examinations of TCDP core samples to pursue the evidence for anomalous geomagnetic fluctuations prior to and during Taiwan Chi-Chi earthquake.
