

General image of our Near-Future and Far-Future world earth, and Global Strategy of Japanese Governmental Affaires

Seiichiro Murakami[1]

[1] member of the House of Representatives

The 6th superrevolution with the discipline of the integrated civilization theory as a spiritual infrastructure implies the general image of our Far-Future world is as follows ; SGU, Supergovernmental Union, areal 6 or 7 Unions, nations, states with the collective security systems in each unions like NATO. This model includes the collapse of the incompetent and useless UN. The new system will concern to control integrately the world-wide problems such as gross world security, population distribution, environmental matter and distribution food-energy sources.

Our Japanese and governmental affairs should notice the current of the times mentioned above and make the plan to contribute such world-wide change and current, immediately. Particularly, we government enforces the total support to democratic nations, especially to United States, in education, edification, impedimenta and finance, in order to make conversion from non-democratic nations to democratic ones. The education and edification are the most important. This is simply because the retrenchment of world population and the reduction of chemical pollution should be incorporated with world poors and because we would get a return from such poors becoming nice markets. The Democratic Party of US which has having the spirit of the founding of the nation, proliferation a pure democracy to the world, is most important for our government, because he has made every effort to establish an ideal world without any wars. We has the next importance to do is the initiation to establish the Asian Union plus India and Australia. The great triangle, Japan, India and Australia with ASEAN in the inner core, looks like the best choice to constitute the formative process of the Union and the security to the Russia and China. The South Korea is also impressive to be incorporated for defending to the North Korea.
