## Survey of volatiles and phyllosilicates by Lunar Imager/Spectrometer

# Ryosuke Nakamura[1]; Tsuneo Matsunaga[2]; Makiko Ohtake[3]; Jun'ichi Haruyama[3]; Haruyama Jun-ichi LISM Working Group[4]

[1] AIST; [2] NIES; [3] ISAS/JAXA; [4] -

Lunar Imager/Spectrometer (LISM) is camera and spectrometer onboard Kaguya. We're conducting the survey of absorption bands of

- \*Volatiles in the permanently shadowed areas
- \*Phyllosilicates in the illuminated part

The preliminary results will be presented along with the detailed calibration procedures.
