## Cooperation between local national university and regional community for installation of geopark

Kazuo Amano<sup>1\*</sup>

<sup>1</sup>Dept. Earth Sci., Ibaraki Univ.

It is necessary for the Ibaraki University as a local national one to cooperate with the regional communities in Ibaraki prefecture to found Geopark. I would like to present the strategy and the system of the cooperation of the Ibaraki University with the regional communities. The geo-tour is the important project in the Geopark. The maintenance of geo-sites and the cultivation of geo-interpreters are requisite for the geo-tour management.

Keywords: geo-park, Ibaraki Prefecture, Ibaraki University
