Recent activities of the Oki Geopark

Kazuhiro Nobe^{1*}

¹Okinoshima Town

I present a brief introduction to recent activities of the Oki Geopark. The Oki Geopark has been permitted to join a member of JGN since October 2009. Our goal is to be registered to GGN in 2011. The most noteworthy attempt of recent activities is to issue electric money (Oki Geopark WAON) by a co-operation with AEON. This is the first case of tie-up electric money concerning with geopark.

Keywords: Oki Islands, Geopark
