Mt. Bandai as a Geo Park

Hiroshi Sato^{1*}, Yojiro Taketani²

¹Mt. Bandai Museum, ²Fukushima Museum

Mt. Bandai area has a wonderful landscape formed by a debris avalanche of Mt. Bandai eruption 1888 and also has very important geological features to know the history of the volcano.

That's why we are active to aim to make this area designate as a Geo Park. Mt. Bandai Geo Park could encourage the local people to understand their circumstance better, so that this volcanic area would be preserved. From the economic view, it is expected that the visitors would increase.

Keywords: Mt. Bandai, Geo Park, debris avalanche
