Research of the Cosmic Environment for Life

Kazunari Shibata^{1*}

¹Kwasan and Hida Observatories, Kyoto U.

In this talk, I would like to introduce the purpose and the contents of the collaborating research project, "research of the cosmic environment for life", which was submitted for the Grant-in-Aid for Shin-Gakujutu-Ryouiki from the MEXT in 2010.

Keywords: space weather, space climatology, astrobiology
