Room: 301B

Time: May 25 13:45-13:55

## Perspectives of the symposium

Hiroshi Kitazato<sup>1\*</sup>

<sup>1</sup>JAMSTEC, BioGeos

Biogeosciences Sections of both EGU and JpGU have decided to collaborate with each other at several different levels. Joint scientific session is one of collaborations. During joint session, we plan to discuss about biomineralisation of marine organisms and their use for proxy developments. As one of conveners of the session, I will give some explanation in terms of background and purpose of the session.

Keywords: International session, JpGU, EGU, Biomineralisation, proxy, Biogeosciences
