Outreach concerning science teachers' development program : at the " School of Rock 2009"

Yasuhiro Taguchi^{1*}, Norihito Kawamura², Tadashi Yoshizawa³

¹Nagasaki Pref. Sasebo-Nishi High School, ²Education and Human Studies, Akita univ., ³JAMSTEC

Taguchi and Kawamura attended the "School of Rock 2009". This was a science teachers' development program held on the JOIDES Resolution, etc, July23-June6, 2009. Participants learned science education methods, ocean drilling and marine geology for 2 weeks during the Expedition 321T(IODP), from San Diego(US) to Victoria(Canada). We obtained findings of the methods of outreach concerning science teachers' development program through this voyage.

Keywords: outreach, science teachers' development program, method of evaluation, School of Rock, the JOIDES Resolution, Integrated Ocean Drilling Program (IODP)
