Room: 304

Time: May 24 09:00-09:15

Primary, Secondary and Tertiary have gone and Quaternary has been left

Michiko Yajima^{1*}

¹NPO-GUPI

The terms of Primary, Secondary and Tertiary were invented in the 18th Century to explain how mountains and strata were made. In the 19th Century, the terms of Primary and Secondary were disappeared because of many inexpedience. In the geologic time scale, Tertiary has disappeared and Quaternary has been left in 2009.

Keywords: Primary, Secondary, Tertiary, Quaternary
