The "Pan Pacific Environmental Changes and Civilizations" (PPECC) project is a multidisciplinary research program funded by KAKENHI. Here, we are undertaking coring campaigns over the Pan Pacific regions in order to study the variability of past environmental changes using annually laminated lake sediments.

キーワード: 古環境復元, 湖沼堆積物, 年縞, 環太平洋地域, 文明の盛衰

Keywords: paleoenvironmental reconstructions, lake sediments, varve, pan pacific region, rise and fall of civilizations
