HQR022-P01

Room:Convention Hall

Time:May 24 10:30-13:00

Basal geometry and internal structure of incised-valley fills, the Chuseki-so in Ishikari Lowland by Borehole Database

Wataru Hirose^{1*}, Gentaro Kawakami¹, Sunao Ohtsu¹, Katsumi Kimura²

¹Geol. Surv. Hokkaido, HRO, ²Geol. Surv. Japan

Alluvium Sequence in Ishikari Lowland is interpreted by 3D Geological model constructed by BoreHole Database.

Keywords: alluvium, BoreHole Database
