Room:Convention Hall

Time:May 27 14:15-16:15

## Maps of the Area hit by the Tsunami of 11 March 2011, Northeast Japan - Northern area between Hashikami and Shiogama -

Yasuhiro Suzuki<sup>1\*</sup>, Mitsuhsa Watanabe<sup>2</sup>, Takashi Nakata<sup>3</sup>, Hideaki Goto<sup>3</sup>, Masatomo Umitsu<sup>4</sup>, Tsunami Damage Mapping Team, Association of Japanese Geographers<sup>1</sup>

<sup>1</sup>Nagoya Univ., <sup>2</sup>Toyo Univ., <sup>3</sup>Hiroshima Univ., <sup>4</sup>Nara Univ.

Tsunami damage area maps with scale of 1:25,000 were made by interpretation of the aerial photographs taken just after the earthquake by Geospatial Information Authority of Japan. The purpose of this mapping is to promptly provide basic information about extent of tsunami invasion and distribution of devastated area for the all people taking counter-measures against the disaster.

Red line indicates limit of tsunami invasion, and portion colored blue shows heavily damaged residential area.

The data can be provided on the 'Digital Japan Web System' or the 'e-comi map', in addition to the JPEG files.
