SCG011-13

Room:304

Time:May 25 11:45-12:00

Present status and results: Satellite observation of seismo-electromagnetics

Tetsuya Kodama^{1*}

¹Japan Aerospace Exploration Agency

Recent results and future plan of satellite observation of seismo-electromagnetics will be reported.

Keywords: seismo-electromagnetics, ionosphere, electron density, electron temperature, satellite, International Space Station
