SGL041-01

Room:203

Time:May 25 08:30-08:45

Prediction of Palaeoenvironment and Geologic Stratigraphy after Pleistocene in the Western Seto Inland Sea

Tatsuya Kunishi^{1*}, Masaaki Tanaka¹, Katsufumi Konishi¹, Eijiro Kochi²

¹The Chugoku Electric Power Co., Inc., ²Sogo Geophysical Exploration Co., Ltd.

Japanese only

Keywords: western seto inland sea, palaeoenvironment, fluctuation of sea level due to climate change, boring survey, geologic stratigraphy
