SMP045-14

Room:301B

Time:May 24 17:45-18:00

Developments of large-volume 6-6 type technique for high-pressure neutron diffraction

Akihiro Yamada^{1*}, Takaaki Kawazoe¹, Nishiyama Norimasa¹, Toru Inoue¹, Takehiko Yagi²

¹GRC, Ehime Univ., ²ISSP, Univ. of Tokyo

NA

Keywords: high-pressure neutron diffraction, 6-6 type compression, multi-anvil apparatus
