## Strong ground motion, ambient noise, and GPS continuous observation in southern Niigata prefecture, JAPAN

YOSHIMI, Masayuki<sup>1\*</sup>, HAYASHIDA, Takumi<sup>1</sup>, OKAMURA, Yukinobu<sup>1</sup>, HORIKAWA, Haruo<sup>1</sup>, SAOMOTO, Hidetaka<sup>1</sup>

We have developed seismic and GPS station arrays respectively composed of 15 velocimeters and 31 GPS receivers in southern Niigata prefecture. See detail in Japanese version.

This research is funded and supported by Japan Nuclear Energy Safety Organization (JNES).

Keywords: ground motion, ambient noise, GPS, Niigata, continuous observation
