The SGEPPSS future survey working group was established in May 2012 with the goal of surveying and summarizing the current status and future vision of the geomagnetism and earth, planetary and space sciences. The working group released the document that summarizes the current status and future vision on the homepage of SGEPPSS in January 2013 and booklets are ready to be distributed. In this presentation, we will outline 43 project plans and 17 institutions listed in this document related to the geomagnetism and earth, planetary and space sciences.
