The SGEPSS future survey working group was established in May 2012 with the goal of surveying and summarizing the current status and future vision of the geomagnetism and earth, planetary and space sciences. The working group released the document that summarizes the current status and future vision on the homepage of SGEPSS in January 2013 and booklets are ready to be distributed. In this presentation, we will outline the future science plan of SGEPSS in the space and planetary sciences-4 focusing building for human knowledge infrastructure, which is prepared by the SGEPSS future survey working group.

Keywords: Future vision, SGEPSS, Knowledge infrastructure
