The relationship between Earth and Planetary Science and politics from the stand point of oceanography

KOIKE, Isao^{1*}

¹University of Ryukyus

Ocean political issue is one of the most critical issues in recent Japan including continental shelf, resources, fishing, conservation of living resources, and total environment of the Earth. Science has been required to give contribution to policy making, which means that to keep balance is important for us. I will discuss the situation of science in recent Japanese ocean politics and how we should go.
