## Education and Geopark in shikaoi - introduction of junior high school "New Earth Studies" textbooks -

ONISHI, Jun<sup>1\*</sup>

<sup>1</sup>Tokachi shikaoi geopark Promotion conference

In shikaoi, an original consistent curriculum has been carried out over a period of 12 years beginning in 2003.

This program has been carried out in elementary, junior high and senior high schools. This unique education has developed a new subject called "New Earth Studies".

I would like to introduce a textbook for junior high school "New Earth Studies" in this poster.
