Report of Geopark education in schools

*畑中 健徳¹、吉川 博輔¹、北川 喜樹²

*Takenori Hatanaka¹, Hirosuke Yoshikawa¹, Yoshiki Kitagawa²

1.恐竜渓谷ふくい勝山ジオパーク推進協議会、2.勝山市教育委員会

1.Dinosaur Valley Fukui Katsuyama Geopark Promotion Council, 2.Katsuyama City Board of Education

This report demonstrates the results and educational effectiveness of our Geopark education in schools. Education outreach for children is the most important area in Geopark. We must teach the about the fun of geo-science and the charm of Geopark. Children will develop awareness of conservation geo-heritage and local emotional attachment by Geopark education.

1.Outdoor education utilizing Geopark resources

2.Volcanology education in areas with no volcanoes

3.Education for disaster prevention using the scenery and three-dimensional model
